tion and to a memorial service conducted by Mrs. Clara C. Hoffman of Missouri. Mrs. L. M. N. Stevans, Vice-President at large, presided.
In discussing "Legislation and Petition."
Mrs. M. B. Ellis, National Superintendent of New Jersey, strongly favored legislation looking to a higher age of consent. "I believe," she said, "we should be a unit throughout the State this relic of barbarism may be virtually killed by being raised to twenty-one years. I would suggest that, as far as practicable, we try to be united in our aims toward the betterment of laws, especially those concerning women. Try to secure the following: Women as factory inspectors, women as physicians in hospitals and insan-asylums, trustees in State institutions, police matrons, seats provided for saleswomen and proper retiring rooms."

The report of the Department of Peace and

Arbitration, prepared by Mrs. Hannah J. Bailey of Maine, was read. She said that, notwith standing the navy is being constantly augmented by costly war vessels and the great cities of the land filled with huge buildings as arsenals and headquarters of the military forces. arbitration is rapidly supplanting warfare as a means of settlement of all international difficult ties. During this century eighty international disputes have been settled by arbitration. The United States alone has settled thirty. There

United States alone has settled thirty. There are at present nearly 300 peace associations. One of the most important is the "Interparliamentary Peace Union" of Europe, with a membership of 1,200 from the different Parliaments of Europe.

Twenty-six States are organized for work on peace lines. The Boys' Brigade is increasing rapidly and inspiring its cadets with a military spirit which is sadly inconsistent with the teachings of the Prince of Peace. "Matters are certainly carried too far when little boys give an exhibition in the house of God and in farce shoot one another, while their comrades run to remove their fallen heroes. Some of the brigades are furnished with regular Government frearms. We must use our influence sgainst the military drill in the schools, and can but deeply regret the act of the New York State Legislature, which sought to provide for military instruction in its schools. The goal for which we are working is an international court of arbitration."

for which we are working is an international court of arbitration."

Addresses were delivered in the afternoon by missionaries from South Africa, Syria, and Armenia. M. H. Guiesian of Armenia talked of the suffering among his people. He severely criticised the United States Government. "We are in danger of extermination, seemingly forgetten," he said. "No one comes forward to help us. This great country has not offered one official protest against the outrages of Turkey. Oh, God, stir up the conscience of your leaders here. We ask one of two things from the civilized nations—get together and give us freedom, or get together and drown every Armenian. We are not only wronged by the Turkish Government, but by the United States Government as well.

menian. We are not only wronged by the Turkish Government, but by the United States Government as well.

"I am a citizen of this country, but I am shamed of our diplomatic relations. There are nearly 10,000 Armenians by birth who are now citizens of the United States. Many of us cannot visit our former homes. There is not power enough in the Stars and Stripes to protect in Armenia; our passports are not regarded, and the American Minister will not help us, except to get from the Suitan an edict for our expulsion. The Judges of Armenian courts are nothing better than brigands and many are too ignorant to read their own language. An appeal to them avails naught."

Miss Willard said that the globe had neveresen a martyr nation to compare with Armenia. Mrs. Gladstone, she said, would stand at the head of a committee of English women to help Armenian women, with Lady Henry Somerset as an aide. Miss Willard favored the best efforts of the W. C. T. U. in the same direction, and her motion to take up a collection for the downtrodden Armenian people met with a hearty response.

TAX BATE IN BROOKLYN.

Over Fourteen Points Higher than Last

The tax rate for Brooklyn this year was anmounced yesterday at the meeting of the Board of Aldermen. It will be \$2.76.7 on \$100 of asseased valuation as against \$2.62 last year.
With two weeks of the campaign still ahead, the Republican managers hope to be able to satisfactorily explain to the taxpayers why the reform administration is not able to keep the rate down to last year's limit. This is the rate

A meeting of the Executive Canal Committee was held yesterday afternoon in the Arbitration Committee's room in the New York Produce Exchange. The purpose of the meeting was the arrangement of a mass meeting to be held or arrangement of a mass meeting to be held on Tuesday night, Oct. 39, at Cooper Union, in the interests of the State canals. What the canal people want is the deepening of the Erie and Oswego canals from their presentdepth of seven feet to mue feet, and the Champlain Canal from its present depth of five feet to seven feet. They claim that the commerce of the canals will be doubled in a season of navigation in the way of increased loads and quicker trips, so that a reduction in freight rates of from 33 to 50 per cent. will follow such improvements.

A Receiver for the Point Pleasant Trolley Line.

Chancellor McGill, sitting in Chancery Chambers in Jersey City yesterday, appointed a re-ceiver for the South Jersey Street Railway Company of Point Pleasant. It was shown that the pany of Point Pleasant. It was shown that the company's property is mortgaged for \$100,000, and there is a floating debt of \$40,000 which the concern is not able to meet. Lawyer Anderson, who made the application on behalf of the creditors, requested that Finance Commissioner James S. Halley of Jersey City be appointed. Strenuous objection was made, and the Chancellor finally settled the difficulty by appointing Lawyer Walnwright of Manasquan.

RIPANS

Chas. G. Marriott, a farmer about 48 years of age, living at Downs, Oklahoma Territory, says of Ripans Tabules: "I used to be troubled with dyspepsia a great deal, but since last April I have not known what it feels like. I would have sour stomach and beich up anything the least bit greasy as sure as I eat it. I saw Ripans Tabules advertised in a St. Louis paper and decided to try them. but could not get them at the drug store here, and so when I went to Guthrie I found some of them and have never been without them since. I went to pretty near every drug store in the town before I could find them I do not see why so good a medicine cannot be found in every drug store. I used to drink red liquor, but have no desire for it now. I can eat ham and beans, or cabbage boiled with fat meat-in fact, I can digest anything I eat without any trouble whatever. I have always lived on a farm and have done many a hard day's work when I was sick enough to be in bed-all on account of indigestion." This testimonial, signed by Mr. Marriott, bears date September, 10th, 1895,

THE TIN PLATE INDUSTRY.

Increase in the Number of Mills and in the WASHINGTON, Oct. 21.-Special Treasury

Agent Ayer has just submitted his report covering the tin plate industry of the United States for the fiscal year ended June 30, 1895. The facts presented show a marked increase in the facts presented show a marked increase in the number of mills for rolling the steel sheets or "black plates," which form the body of commercial tin and terms plates; terms plates being plates which are coated with a mixture of tin and lead, and which are generally used for roofing purposes. The largely increased consumption of steel sheets from American rolling mills indicates not only the accelerated growth of this branch of the industry, but an actual preference for American rolled sheets, both for coating and for the uses to which the finished plates are applied.

Anti-toxin's Remarkable Curative Power. As confirmatory of the results attained in this city by the use of anti-toxin for the cure of diphtheria, President Wilson of the Board of Health has sent the Mayor the official statistics of deaths from diphtheria in Paris during the last few years. The figures show a decrease of almost 68 per cent. in the mortality for the last four months of 1894 as compared with the last quarter of the three previous years, the use of anti-toxin having been begun in April, 1894. In the first or winter quarter of 1895, when the disease is at its worst, the death rate was but 14.9, as against an average of 55 for the corresponding quarter of the previous three years.

Local Business Troubles,

The Sheriff has received two claims against Wheelmen's Protective Company of 26 Cortlandt street, an attachment for \$500 and a Cortlandt street, an attachment for \$560 and a judgment for \$404. The company was organized in April, 1894, for the registration of bicycles, to restore a lost wheel to a subscriber or furnish him a new one, and claims to have 300 agencies in the United States.

Judgment for \$34,174 was entered yesterday against the Port Richmond and Prohibition Park Electric Railroad Company of Staten Island in favor of Ernest Hall, as receiver of the firm of J. C. Thompson & Co., for money loaned from May 7, 1892, to Feb. 26, 1805.

to the plan of the Consolidation Committee.

That statement, however, is simply the view of
